Re: Letter of Recommendation

Inflatable Restoration and Repair in Buena Vista, Colorado has helped many of our customers with repairs on both Riken and Momentum inflatables. They have proven most capable of handling repair tasks such as floor I-beams, bulkheads, valve boot replacements and floor replacement. Without hesitation I channel our warranty work in their region to their shop and recommend both outfitters and private rafters contact them for professional repair work for any inflatable.

Best regards,

Doug Zeal
